FOREWORD

The present textbook '**PALLAVI**' for class IV is designed to meet the changing needs of the students in multicultural context of globalisation and international communication in accordance with the National Education Policy 2020, NCF-FS 2022, NCF-SE-2023 and Odisha Curriculum Framework for school education-2025. To develop the textbook, all most all the theme areas and language competencies have been taken from NCERT textbooks 'MRIDANG' for grade II and 'SANTOOR' for grade III. Selective chapters have been taken from both the books after careful considerations; edited and reviewed looking into our local context. This book aims at transmission of knowledge and language usage for communicative purposes such as using the language appropriately in different real-life situations to perform different types of activities especially for social interaction with people. Further, the textbook lays stress on conceptual understanding, reasoning, critical thinking, creativity, values and dispositions essential for developmental stage. It is hoped that the book will meet the academic needs of the students learning English in class IV in our state.

I sincerely extend my heartfelt appreciation to all the academicians of NCERT. Again, I am grateful to editors, subject experts, reviewers, artists and coordinators who have contributed their time, knowledge and creativity to make the book contextualised.

DTE and SCERT welcomes creative comments and constructive suggestions of teachers, students, parents, stakeholders in the light of which we would like to improve the book in the next edition.

About the Book

Language is mostly learnt through exposure and use in a meaningful context. While exposure to language is mainly done through listening and reading, use is done through speaking and writing. The more one listens to a language and reads a language, the more s/he gets exposed to that language. Exposure lays the foundation of a language and also foundation for using the language. One can't use (speak) the language unless one has sufficiently listened to the language. One can't write the language unless one has widely read the language. Both the exposure and use are to be done in meaningful contexts. What one listens and reads should be useful and interesting to him/her. Similarly, what one speaks and writes should also be interesting and useful for the user. In other words, all these are to be done in contexts and the user should be involved in the activities. This is the secret behind learning any language.

The present textbook 'PALLAVI' is designed by merging two textbooks i.e. 'Mridang', NCERT English textbook for class II and 'Santoor' NCERT English textbook for class III. The textbook has been developed in alignment with the visionary framework of National Education Policy (NEP)2020, NCF-FS-2022, the NCF for School Education 2023 and Odisha Curriculum Framework for school education-2025 which aim at developing the four language skills in an integrated manner. There are seven units and thirteen chapters given in the textbook. The textbook draws contents from children's real life experiences and reflects their cultural and social milieu. It is purposefully crafted to meet specific stage competencies and grade-based learning outcomes ensuring alignment with core principles of the subjects. It ensures language appropriateness for the grade level and provides support for unfamiliar vocabulary and complex sentence structures. In content selection, Odisha based local contents have been reasonably blended with National context based on Indian values and traditions. The textbook aim to be engaging, striking a balance between values and texts, learning towards visually appealing materials making it suitable for easy comprehension.

The textbook offers engaging learning materials for students to converse with each other for development of the oral skill, the content features a range of activities such as reciting rhymes, singing songs, role-playing etc, facilitating in class practice. To enhance reading abilities, the textbook presents a diverse array of contexts, encompassing stories, poems and narratives. It maintains a balance between familiar and unfamiliar texts and contents. With large font sizes, colourful illustrations and captivating chapter titles, it captivates student's interest. The text book stimulates critical thinking and sparks imagination, fostering curiosity. The content is structured to help students in transitioning from guided to independent reading for honing writing skills, the selected content systematically imparts writing proficiency. Students engage in activities that encourage independent practice such as constructing simple sentences, encouraging creative expression and skill development in writing.

Curricular Goals (CG) lay foundation of every teaching learning material. The curricular goals of language address the diverse needs of learners in a language classroom. The present textbook emphasizes curricular goals of Foundational Stage like CG.9.1, 9.2, 9.3,9.5,9.6,9.7 through various rhymes, stories, activities. It also has addressed curricular goals of preparatory stage as following.

CG 1 Sustains effective communication skills for day-to-day interactions, enhancing their oral ability to express ideas. The book provides ample opportunities for learners to engage with the text and share their input. Sections titled 'let us listen and speak' present such opportunities to students to be creative with replies and share with classmates allowing learners to engage with language in a meaningful way.

CG 2 aims to develop fluency in reading and the ability to read with comprehension. The activities in the present textbook are designed to evoke responses by the learners reflecting their understanding of the text through the 'Answer the following questions' subsection.

CG3 aims at developing the ability to express the learners' understanding, experiences, feelings and ideas in writing. The textbook provides ample scope for guided writing and also writing with props in gradual progress towards making the learners independent writers.

CG4 develops a **wide range** of **vocabulary** in various **contexts**. **Care** has been taken to incorporate **lesson wise activities** which focus **on introduction** and use of new words in real life situation.

The theme of Unit-1 is 'Fun with Friends' which encourages language acquisition through **friendly animals and imaginative characters as a lense**. Children **get a glimpse of having fun by oneself in 'My Bicycle'** and a joy of playing a variety of **games** with friends during holidays.

Unit-2 titled 'Going Places' focuses on the concept of travel and modes of transport- the journey of reaching school from the perspective of a young learner.

In Unit-3 titled 'Life Around Us', the poem 'The Crow' brings out the **concept of self-esteem and the idea of self in a subtle way**. **Hygiene and cleanliness is the central idea of the story 'The Smart Monkey'** which brings into discussion the necessity of taking care of oneself and of the surroundings.

Unit-4 titled 'Toys and Games' takes the children into the world of **indigenous toys and games**. **The lesson 'Out in the Garden'** gives a glimpse of the world of toys taking the children into the imaginary world with **emphasis on the joy of playing**. 'Paper Boats' emphasises on the joy of making and sharing simple toys.

In **Unit-5** titled 'Welcome to My **World**', young learners are exposed to five sense **organs** and also the lesson '**Seeing Without Seeing**' sensitise the learners towards the **differently abled people**.

In Unit-6 titled '**Harmony**' the lesson 'We are All Indians' aligns with the **Indian ethos of 'Unity in Diversity'**. 'Little Drops of Water' is a short yet an **important poem which is** reflective of the Indian values of co-operation and peaceful co-existence.

Unit- 7 titled 'The Sky' begins with the poem 'Night'. In the poem a young child **wonders about his day and** how it is **shaped** by the **sunset and sunrise**.

In '**Chandrayaan**' **siblings Rani and Prateek** try to **get a glimpse** into **Indian's lunar mission 'Chandrayaan'** with the help of their neighbour '**Nandini Aunty**' **who is a space scientist**.

Language and literacy, physical, socio-emotional, aesthetic and cognitive domain have been integrated along with the development of positive habits to create a learning impression in totality for children. Development of Annamaya, Pranamaya, Manomaya and vijnanamaya Koshas is an ongoing process which leads to the manifestation of Anandamaya Kosha. The present textbook is a step in this direction.

The textbook is not the only source of learning. Children learn much more while observing the environment around them, talking to peers and elders including grandparents, making things of their interest, watching T.V, playing with mobile, toys and games, listening stories, peers, doing projects, visiting places of cultural importance and travelling. Therefore we, as teachers and parents, need to value this learning which goes beyond the textbook and try to map it with the competencies and curricular goals identified for this stage. Education of our children is seen as our collective responsibility.

Pet animals help us in many ways. Let us read the lesson “Badal and Moti” and know how the pet helps its master.

The text

There was a boy called Badal. He lived with his mother in a village and they were very happy. One evening, when Badal was returning from school, he saw a puppy shivering in the cold.

Badal brought him home. “Can this puppy stay with us, Maa?” asked Badal. “Yes beta, but only if you promise to take care of the puppy”, said his mother with a smile. Badal and his mother named the puppy Moti. As days went by, Moti grew up and loved Badal.

They became best friends. They ate and played together. Moti followed Badal wherever he went. They played their favourite games together.

One rainy day, while Badal was on his way home from school, he slipped on the muddy lane and fell into a deep pit. He tried hard, but could not come out of the pit. Badal's mother was worried when he did not come home in time. Moti too was waiting at the gate. Badal's mother gathered the neighbours to help search for him. Moti too accompanied them.

Seeing without Seeing

Pre-reading

Let us sing and dance with this song.

Two little hands
go clap, clap, clap.
Two little legs
go tap, tap, tap.

Two little eyes
are open wide.
One little head
goes side to side.

Two little eyes to look around.
Two little ears to hear any sound.

One little nose to smell and breathe.
One little mouth that likes to eat.

Hands to clap, legs to walk
Nose to smell, mouth to talk
Head to move, eyes to see
I have a little body that belongs to me.

The text

Little Rupali returned from the school. She opened the door quietly. She kept her bag on the table quietly.

Her mother looked at her.

“Rupali, you are very quiet today,” said the mother.

“Did anything happen in the school?”

“Yes Mama”, said Rupali “A new boy came to our school. He sits in our class.”

“Yes?” said the mother, listening to Rupali, and

placing biscuits and milk on the table.

“The teacher helped him sit in the front desk,” said Rupali. “He wears black glasses.

He cannot see.

He will come every day. How will he do things?”

“Finish your biscuits and milk,” said the mother.

“Then we will play a new game.”

“Yes, let us play,” said Rupali. She tied a scarf over Rupali’s eyes.

“Now tell me what do I hold in my hand?”
said the mother.

“How can I ?” asked Rupali

“My eyes are closed. I can’t see.”

“You can find out,” said the mother.

“Try it.”

The mother had a rose in her
hand.

“What do I hold?” she asked.

Rupali touched it.

“It is something soft.... a flower!”

she said.

“Yes,” said the mother.

“But what flower is it?

Smell it!”

Rupali bent forward and
sniffed at it.

“It is a rose!” she cried.

“Good!” said the mother.

“Now try another
thing..... What do I
hold?” She held a small
bell in her hand.

She shook it. Trin.....Trin..... “I know,” said Rupali with joy. “It is the bell. The small bell that gives such a musical sound. I can hear it, Mama!” Rupali took the bell and shook it herself. “Smart girl!” said the mother. Then she took a glass in her hand. “What is it? What do I hold now? Do you know?” she asked.

Rupali touched it. “It is a glass,” she said.

She put one finger slightly into the glass.

“A glass of water!”

“Are you sure?” asked the mother.

“It could be milk or juice.” Rupali tasted it. “Oh!” She cried, “It is not water, it is orange juice.” The mother laughed. “Good girl!” she said.

“Now I will remove the scarf. You must tell what is in front of you!” she said.

She took off the scarf. Rupali blinked and looked at her. “It is you, Mama,” she shouted with joy.

“I see you!”

“That was a wonderful game, Mama” said Rupali

“So, Rupali”, said the mother. “If a child cannot see, there are other ways of finding out things. But the child may have some difficulties. I hope all of you will be friends with the new boy.”

“Yes, Mama,” said Rupali.

Chapter - 13

Chandrayaan

Pre-reading

Look at this picture.

What do you see in it?

a moonlit night - the blue sky - the crescent moon - the twinkling stars - the green earth below - some children at the top of a house enjoying the bright moon up above in the sky -

The moon is there in the sky. The children are here on the earth. Can they reach the moon to see it from near? How?

Let us read a story on '**Chandrayaan**' and know.

While - reading

The text

Chandrayaan

There was a girl named Rani who lived in a village. She was very curious and used to ask many questions to her family, teachers and friends.

“Why is the sky blue?”

“Where does the sun go at night?”

One evening Rani heard her mother singing,

“Chanda mama door ke...”

Hearing this, Rani asked her mother, “Amma, how far is the Moon?” Amma said, “Rani, the Moon is very far in the sky”.

Rani kept on thinking about the moon and fell asleep.

The next morning Rani woke up hearing the loud voice of her elder brother, Pratik. He was pointing to the TV and shouting in excitement, “Look Rani, India is on the Moon!”

Rani looked at the TV. She could see photos of some machines on the Moon. She heard a few people talking about the landing on the Moon. She was

confused and asked Pratik, “How did Chandrayaan reach the Moon?”

Have you seen pictures of Chandrayaan landing on the moon ?

Pratik replied that his friend Vivaan’s mother, Aunt Nandini, is a scientist. “Shall we go and talk to her?” asked Pratik. Rani happily agreed. Both Rani and Pratik

decided to visit Vivaan’s house.

Vivaan and his mother welcomed them. Rani could see many models and photographs of rockets in their house.

Nandini Aunty

offered *sharbat* to the children and said, “Rani, what do you want to know?”

Rani replied, “People say India is on the Moon. Can you please tell us more about this?”

Aunty said, “Yes, of course. Do you know which vehicle is used to go to the Moon?”

Pratik immediately said, “I know Aunty, it is a rocket. I had seen on the TV”.

Rani pointed to the models and photos of rockets in the room.

Nandini said, “Very good. Yes, a rocket is used to reach the Moon.”

Rani asked, “What does Chandrayaan mean?”

Nandini replied, “*Chandra* means Moon and *Yaan* means vehicle. On 14 July, 2023, India became the first country to land on the far side of the Moon.”

Rani jumped with excitement and said, “Can I go to the Moon, too?”

Nandini smiled,
“Maybe, one day.”
