FOREWORD

It gives me immense pleasure to present Jasmine, the English textbook for Class VI, developed in alignment with the vision of the National Education Policy (NEP) 2020, National Curriculum Framework for School Education (NCF SE 2023) & State Curriculum Framework (SCF SE 2025). This textbook is the result of a collaborative effort of experts drawn from District Institutes of Education and Training (DIETs), Board of Secondary Education, State Institute for Languages and Teachers' Training, (SILTT) as well as from the domains of elementary, secondary, and higher secondary education, under the academic leadership of the State Council of Educational Research and Training (SCERT), Odisha.

Jasmine is not merely a textbook- it is a window into the linguistic, cultural, and literary world that our children inhabit and inherit. It aims at developing the core language skills of listening, speaking, reading, and writing in a meaningful and pleasant way. The content is rooted in the rich cultural heritage, traditions, and local knowledge systems of Odisha, while also reflecting the broader framework of the Indian Knowledge System as envisioned in the NEP 2020.

The stories, poems, and activities such as role play, pair work, group discussions, language games, riddles, quiz etc. in this book are designed to make language learning joyful, contextual, and relevant to the lives of our students. By weaving in local contexts and values, Jasmine encourages learners to take pride in their identity, appreciate their roots, and become confident communicators in English.

I extend my heartfelt appreciation to all the educators, writers, and experts who contributed their time, knowledge, and creativity in the development of this textbook. I also acknowledge the support of the School and Mass Education Department, Government of Odisha, for its continued commitment for improving the quality of education in the state.

I am confident that Jasmine will serve as an effective tool for language learning and will inspire our students to explore, express, and excel in real life situations.

ABOUT THE BOOK

JASMINE, a textbook of English for Class VI, is developed in accordance with the vision of the National Education Policy (NEP) 2020, the National Curriculum Framework for School Education (NCF-SE) 2023 and State Curriculum Framework (SCF SE 25). Language education is essential for effective communication, aesthetic expression and appreciation in real life situations. Language development plays an important role in the development of perceptual and practical concepts.

The textual material developed for the Middle Stage will take children well beyond the Preparatory Stage. Curricular goals, competencies, and learning outcomes have been the guiding principles while developing the textbook. The Curricular Goals (CG) cover a range of competencies.

CG-1 : Students develop independent reading comprehension and summarising skills of a variety of texts (stories, poems, extracts of plays, essays, articles and news reports).

CG-2 : Attain the ability to write about thoughts, feelings and experiences of social events.

CG-3 : Develop the capacity for effective communication using language skills for questioning, describing, analysing and responding.

CG-4 : Explore different literary devices and forms of literature.

CG-5 : Develop the ability to recognise basic linguistic aspects (word and sentence structure) and use them in oral and written expression.

The curricular goals have been covered through a variety of themes and innovative classroom activities. There are five thematic units that comprise stories, poems, conversation, narrative and descriptive pieces. Themes such as friendship, wellness, sports, nature, art and culture, etc. have been included. Cross-cutting themes, such as Indian Knowledge Systems, values, heritage, gender sensitivity and inclusion have been integrated in all the merits. Each unit has three literary pieces-story or conversation, poem and non-fiction.

Unit 1, 'Fables and Folk Tales', offers timeless wisdom through engaging narratives that resonate with young minds. It includes a classic fable as well as a folk tale from Tamil Nadu. The story, 'A Bottle of Dew' shows that true success comes from hard work and diligence. The poem, 'The Raven and the Fox' is a fable told in poetic form where students learn about the futility of vanity and flattery. 'Rama to the Rescue' is a graphic story that demonstrates the value of presence of mind in overcoming challenges.

Unit 2, 'Friendship' will help students comprehend the meaning of 'real friendship' and that friendship has a huge impact on one's well-being. The story 'True Friendship' is a narrative of a unique friendship that blossoms between a tortoise, a woodpecker and a deer. This story highlights the importance of empathy and how true friendship can bring joy and fulfilment, even in unexpected circumstances. 'Nobody's Friend' is a poem that reflects the significance of nurturing friendship by sharing things. 'The Chair' is a story in which a grandfather helps Papu, his grandson, to distinguish between real and superficial friends.

Unit 3, 'Nurturing Nature' is about the relationship between nature and human beings. The idea that nature has healing powers is inculcated among learners through the selected narratives. This unit encourages students' curiosity to explore the world around them. 'Neem Baba,' is a conversation between Amber and the grand old neem tree. Through the conversation, the students learn about the numerous benefits of the neem tree found in almost all parts of our country. The poem, 'What a Bird Thought,' is an empathetic journey that the students partake when they see the world through the eyes of a little bird. 'Our

Daily Spices’ is about spices that are used at home and have natural healing and recovery processes. This unit upholds the rich knowledge of the herbs and spices, which has been handed down over generations.

Unit 4, ‘Sports and Wellness’, invites students to explore the multifaceted world of physical activity, mental health and holistic well-being. This unit aims to cultivate not only physical fitness but also emotional intelligence, self-awareness and a positive mindset, equipping students with essential skills for navigating the complexities of the new era with confidence and vitality. The story, ‘Change of Heart’ highlights the value of sportsmanship, fair play and enjoying the game regardless of winning or losing. The poem, ‘The Winner’ captures the joy and excitement of childhood games, emphasising the thrill of outdoor play. ‘Yoga-A Way of Life’ is about maintaining a healthy lifestyle, well-being and discipline.

Unit 5, ‘Culture and Tradition’, aims to reawaken the spirit of Ek Bharat, Shreshtha Bharat among the students. It also celebrates the indomitable and unwavering creative spirit of our country. ‘*Kalakritiyonka Bharat*’, enables the students to be aware about the rich heritage of craft work. Presented in the form of narratives of children from different parts of India, it promotes appreciation of various art forms. The poem, ‘The Kites’ is an autobiographical account of a kite and its invincible spirit. ‘Ila Sachani : Embroidering Dreams with her Feet’ is a tribute to the persistence of a young girl. The story on Ila Sachani with special needs introduces the learners with traditional embroidery highlighting the fact that one can overcome challenges and can achieve success beyond limits. The poem, ‘National War Memorial’ is to recite and appreciate the spirit behind it.

There are intext questions, ‘Let us discuss’ to assess comprehension of the text. The end of the text questions given in ‘Let us think and reflect’ are designed to encourage critical thinking, reasoning, responding, analysing etc. The literary pieces are not only entertaining but also instil valuable life lessons, fostering personal growth and helping children navigate social situations with confidence. The selected pieces will resonate with children’s daily experiences and encourage positive values like resilience, empathy and emotional

intelligence that can have a profound impact on their development. The focus of the book is developing competencies of four language skills, viz - listening, speaking, reading and writing while developing vocabulary and grammar in context. Language learning becomes meaningful when connected to the immediate environment of learners and they express their thoughts, feelings, experience through experiential learning.

All the activities are colour coded under the headings “Let us discuss”, “Let us think and reflect” “Let us speak”, “Let us listen”, “Let us learn”, “Let us write”, and “Let us explore”. Transcripts for “Let us listen” are given at the end of each unit. Intext activities and exercises at the end of each chapter are engaging - they promote joyful learning along with assessment as and for learning. Illustrations have been designed depicting the context to enhance learning. Almost all the theme units along with competencies and learning goals which have been dealt in “Poorvi” (Textbook of English for Grade 6) of NCERT are made keeping in view our local contexts.

The Board of Editors and Reviewers would like to extend their deep sense of gratitude to the Director, TE & SCERT and the Coordinator for their useful guidance and cooperation in taking up this uphill task.

We sincerely welcome creative suggestions from learners, teachers, parents and public for further improvement of this book in the next editions.

I

Rama Natha was the son of a rich landlord. His father left him large areas of land when he died. But Rama Natha did not spend even one day looking after his land. This was because he had a funny idea. He believed there was a magic potion that could turn any object into gold. He spent all his time learning more about this **magic potion**. People cheated him often, promising to tell him about it, but he did not **give up**. His wife, Madhumati, was tired of this. She was also worried because she saw how much money Rama Natha was spending. She was sure that soon they would be without money.

One day, a famous sage called Mahipati came to their town. Rama Natha became his follower and asked him about the potion. To his surprise the sage answered, “Yes, in my travels in the Himalayas, I heard how you could make such a potion. But it is difficult.”

“Tell me!” requested Rama Natha.

“You have to plant a banana plant and water it regularly with your hands. In winter, the morning dew is on the leaves. You have to collect the dew and store it in a bottle. When you have five litres of dew, bring it to me. I will **chant** some magic words, which will turn it into the magic potion. A drop of the potion will change any object into gold.”

magic potion: a liquid with magical things

give up: stop trying

dew: small drops of water on leaves that form during night

chant: to repeat or sing a word or phrase

Rama Natha was worried. “But winter is only for a few months. It will take me years to collect five litres of dew.”

“You can plant as many banana plants as you want. But remember, you must look after them yourself and collect the dew with your own hands.”

Let us discuss

1. What did Rama Natha believe?
2. How did the sage help Rama Natha?
3. Do you think Rama Natha will be able to collect the dew? Give a reason.

II

Rama Natha went home, and talked to his wife. Then he started cleaning his large fields, which had been lying empty all these years. There he planted rows and rows of banana plants. He **tended** them carefully. During the winter months, he collected the dew with great care. His wife helped him too. Madhumati gathered the banana crop, took it to the market and got a good price for it. Over the years, Rama Natha planted more and more plants, and they had a huge banana plantation. At the end of six years, he finally had his five litres of dew.

Carefully, he took the bottle to the sage. The sage smiled and **muttered** something over the water. Then he returned the bottle and said, “Try it out.” Rama Natha **sprinkled** a few drops on a copper vessel and waited for it to turn into gold. To his surprise nothing happened!

“This is cheating,” he told to the sage. “I have wasted six **precious** years of my life.”

But sage Mahipati only smiled and called Madhumati to come forward. She came with a big box. When she opened it, they saw shined **stacks** of gold coins!

Now the sage turned to the very surprised Rama Natha and said, “There is no magic potion that can turn things into gold. You worked hard on your land and created this plantation. While you looked after the trees, your wife sold the fruit in the market. That's how you got this money. It was your hard work that created this wealth, not magic. If I had told you about this earlier, you would have not listened to me, so I have played a trick on you.”

Rama Natha understood the **wisdom** behind these words and worked even harder on his plantation from that day on.

Sudha Murty

Let us discuss

1. Why was Rama Natha angry?
2. How did Rama Natha and Madhumati create wealth?

Let us explore

Find out the varieties of bananas which are grown, cultivated and eaten in different parts of India. You can find information about them from websites such as:

<https://nhb.gov.in/pdf/fruits/banana/ban013>

There is a special kind of banana called the Blue Java banana. This banana has got its name from its blue skin. It is also known as Ice Cream banana as it is so creamy and tastes like ice cream. It is grown in South East Asia and Hawaii. These banana plants grow to a height of fifteen to twenty feet.

Let us read

Mr Raven was perched upon a limb,
And Reynard the Fox looked up at him;
For the Raven held in his great big beak,
A morsel the Fox would go far to seek.
Said the Fox, in admiring tones: "My word!
Sir Raven, you are a handsome bird.
Such feathers! If you would only sing,
The birds of these woods would call you King."

Jasmine - Class VI

The Raven, who did not see the joke,
Forgot that his voice was just a croak.
He opened his beak, in his foolish pride—
And down fell the morsel the Fox had eyed.
“Ha-ha !” laughed the Fox. “And now you know,
Ignore sweet words that make you glow.
Pride, my friend, is rather unwise;
I'm sure this teaching is quite a surprise.”

FRIENDSHIP

True Friendship

Let us do these activities before we read.

- Friends are an important part of our lives. Why do you think so ?
- What do you do with your friends ?

- How do you feel with your friend?

Let us read

A long time ago, there lived three friends, a tortoise, a deer and a woodpecker in a forest **surrounded** by a lake. They were very close and spent time playing with each other.

One day a hunter came to the forest. He was very happy to see the footprints of a deer near the lake. He followed the footprints and set a huge **leather trap** along the lake's **edge**.

At late night the deer felt thirsty and visited the lake. But **unfortunately** he fell into the trap.

The deer was shocked by the huge trap and cried out of fear and pain.

“Please someone help me, I have been trapped” The woodpecker noticed the sound and flew down from the top of the tree. The tortoise too heard his friend's voice and came out of the lake to **discover** what had happened. Both of them were **horrified** to see the trap.

When the woodpecker located the hunter's house , she flew over the hunter's head and started **pecking**.

The hunter cried out in extreme pain and tried to flee through the back door. But again, the clever woodpecker was already aware of the situation and continued attacking him. The hunter was **startled** and he stayed in his house for a while. However the tortoise was so tired that he could not get away. The hunter picked him up and put him in a bag, which he tied to a nearby tree. When the deer saw his friend getting **captured**, he thought of a plan. He slowed down to let the hunter see him and release the tortoise.

The hunter started chasing the deer with his knife, but the deer ran too fast to be caught. The hunter entered the deep forest while following the deer, and lost his way in the wood. The deer quickly got out of the forest and reached the lake. He tore open the bag where his tortoise friend was trapped, using the sharp horns. The tortoise was **rescued** and there was a little **reunion** as the woodpecker joined them. The deer asked his friends to hide in the forest until the hunter goes away. The tortoise hid in the water, the woodpecker flew away to her nest and the deer hid in the thick woods.

When the hunter finally found his way out of the forest, to his surprise, he found out that the tortoise had also escaped. Let us read

There was a boy called Papu, who loved to have lots of friends. He **showed off** a lot, always talking about how many friends he had at school, and how he was so friendly with everyone.

One day his grandfather said to him, “Papu, I bet you a fruit chaat. You don't have as many friends as you think you have. I'm sure many of them are nothing more than **companions or partners**”.

Papu accepted to the bet readily. However, he wasn't sure how he could test whether his schoolmates were real friends or not. So, he asked his grandpa for help. He suggested, “I have exactly what you need. It's in the attic. Wait here a minute.”

Grandpa left, soon returning as though carrying something in his hand, but Papu could see nothing there.

“Take it. It's a very special chair. As it's **invisible**, it's rather tricky to sit on it. But if you take it to school and manage to sit on it, then the magic will work and you'll be able to tell who your real friends are.”

Papu, brave and **determined** took the strange invisible chair and **set off** for school. At break time, he asked everyone to form a circle. He put himself in the middle, with his chair.

“Nobody move. You're about to see something **amazing**.”

Papu tried sitting on the chair. As he could not see it, he missed and fell straight onto his backside. His classmates laughed at him.

“Wait, wait, just a minute, something has gone wrong” he said, trying again. But again, he missed the seat. His friends laughed at him loudly again Papu wouldn't give up. He kept trying to sit on the magic chair and kept falling to the ground until, suddenly he tried again and didn't fall. This time he sat hanging in mid-air.

Then he finally **experienced** the magic that his grandfather had been talking about. Looking around, Papu saw Rony, Amrit and Prateek - three of his friends – holding him up, so he wouldn't fall. Meanwhile, many others he'd thought of as friends had done nothing but made fun of him, enjoying each and every fall.

Leaving with his three friends, he told them how his grandfather had so cleverly thought of a way to show him that true friends are those who care for us. A friend wouldn't be someone who takes joy in our bad luck.

That evening the four children went to see Papu's grandpa as he had won the bet. They had a great time listening to stories and eating a lot of fruit chaat. From then on, they used the magic chair test on many **occasions** and whoever passed became friends for life.

THE UNLIKELY BEST FRIENDS

Let me tell you a story of a cow and leopard from Vadodara in Gujarat who became friends. As you know, a leopard is a wild animal and a cow is a domestic animal. Some people say that the cow took care of the leopard cub like a mother. When the cub became older, it went away from the village. It returned to meet the cow at night. The villagers were worried, but they never stopped the leopard. They saw that the leopard just sat beside the cow quietly. The cow and the leopard spent time by relaxing and playing with each other. The leopard did not like the villagers and stopped coming regularly. The villagers were surprised that the leopard never attacked the cow but became its friend.

Hello !

Let me tell you what outdoor activities Pupi and Gudu enjoy doing. Some days they like playing at the swings on the park. Pupi enjoys slides the most. Gudu likes nature , so both take walks in the nearby park, listen to birds and look at the trees. On Saturdays, both go cycling around the neighbourhood. What both truly enjoy is eating ice-cream together. Sometimes they also read comic books.

When I first joined this new school, things were very difficult. There was Monika. She was a supportive friend who guided me, introduced me to others and even shared her notes. That made me comfortable in the school. Since then, Monika and I have been together through difficult times and happy times. She is the kind of friend who is always there for you. I'm really thankful to her, and how her help and support turned into a really good friendship.

Amber returned from school and sat down in the shade of the neem tree in her **courtyard**. She felt that the tree was whispering to her. She looked at the tree and spoke to the tree.

Amber: *Namaste!* I am Amber. I would like to talk to you.
May I?

Neem Baba : Sure, dear Amber. I know you. You played in my shade in your childhood. You may call me 'Neem Baba'.

Amber: I have seen you almost everywhere. Please tell me something more about yourself.

Neem Baba : I am very old. I was born millions of years ago somewhere in North India or Myanmar. Soon, my family spread outside India.

Amber: Outside India? Where else can neem be found?

Neem Baba: My family can be found in many Asian and African countries and even in some parts of America.

Amber: That's wonderful! Who gave you your name?

Jasmine - Class VI

Neem Baba : The story of my name is very **thought-provoking**. I was born in India and given Sanskrit names such as Arishta (the one who cures diseases), Nimba and Nimbaca. The name 'Neem' is given by the Iranians.

Amber : Really?

Neem Baba : Yes, in Hindi, my name is Nimb. In India, I have other names—Nim, Leemba, Nimori, Nimbamond, Nimbe and Nimo.

Amber : You are so well known! That is wonderful.

Neem Baba : Dear Amber, we become well known for what we do. People find us useful and that is why they know us. Scientists call us 'bitter grace of God', 'nature's gift to man', and 'cleanliness-parting tree'. Some even call us 'magic tree' and 'the tree of the twentieth century'.

Amber:

I know that people clean teeth with your **twigs** and protect clothes with your leaves. Sometime back, when my brother had **measles**, the doctor told us to put neem leaves on his bed and make him lie down on them. Can you explain why?

NeemBaba:

The doctors know that neem leaves have chemical properties that destroy germs. Measles cause **itching** all over the body. Neem leaves give comfort and do not allow germs to **breed**. Neem leaves, bark, flowers, fruits and even roots can be used to make medicines to cure many diseases.

measles: disease with fever and red spots on skin

itching: feeling the need to scratch

Jasmine - Class VI

Amber : Yes, I once had a cough and I could not breathe properly. My grandmother cured me with a medicine made from neem bark. And when my father had itching in the eyes, she prepared a kajal from neem flowers, which cured him.

Neem Baba : Oh, little Amber, you know so much. Remember, these **remedies** are to be used only by people who are well trained and have a lot of experience.

Amber : Yes, I will. Tell me Neem Baba, is there any use of neem for the farmers?

Neem Baba : Yes. If the powder of neem seeds is mixed in water and sprayed on plants and trees, then **locusts** don't eat them. If it is used in rice fields, where water remains standing, it stops mosquito breeding and helps to increase crop yield. It also saves the crop from **termites**, which eat roots of the crop, and it also stops breeding of other insects that eat crops.

Amber : That means, if we put the powder of neem seeds in **stagnant** water around our homes, mosquitoes won't breed in them!

remedies : things that make people better when ill

locusts: flying insects that damage crops

termites: insects that damage wood and buildings

stagnant: not flowing

This must be a **cost-effective** method to stop mosquitoes from breeding. Please tell me other uses of neem in our daily life.

Neem Baba : Of course. People save their stored grains from insects by adding neem seed powder to them. Neem oil is also used to make soaps and toothpaste. Furniture made from neem wood is not eaten by termites. Neem also **purifies** the air. There are many qualities yet to be discovered. Will you discover them when you grow up?

Amber : Yes, Neem Baba. I will. Thank you for your time today!

Neem Baba : Bless you, my child!

- What it is like (height, tree trunk, leaves, flowers, etc.)
- Why you like it (shade, medicinal properties, shelter, beauty, etc.)

Let us Explore

When people from Persia came to India and saw that a common tree of their country was freely growing here, they started calling the tree *Azad Darakhte Hindi*. So, the scientific name of Neem in Latin became *Azadirachta indica*.

Neem has different names in the Indian languages. Discuss with your teacher and find out which Indian languages these names belong to.

I lived first in a little house,
And lived there very well,
I thought the world was small and round,
And made of pale, blue shell.

I lived next in a little nest,
Nor needed any other,
I thought the world was made of straw,
And nestled by my mother.

One day, I fluttered from my nest,
To see what I could find,
I said the world is made of leaves,
I have been very blind.

At length I flew beyond the tree,
Quite fit for grown-up labours,
I don't know how the world is made,
And neither do my neighbours.

Dear Dugu Bhai

Pranam!

I came to know about your illness. Sudden rain in winter caused you to suffer from cough and cold. Because of illness you have become very weak. I told Jeje about you. He suggested you using spices from kitchen. Here I write the names of spices and their usefulness.

Let us start with **Haldi (Turmeric)**. It can improve energy level and digestion. It helps in reducing body pain too. You may have heard that **Methi (Fenugreek)** helps sugar level and body weight in control. **Jeera (Cumin seed)** soaked in water overnight improves digestion and helps us cure from sleeplessness. **Dalchini (Cinnamon)** and **Labanga (Clove)** give relief from toothache till we consult a dentist. **Ada (Ginger)** can help us get relief from cough and cold. **Elaich (Cardamom)** makes the digestive and respiratory systems active.

Bhai, now you can go to the kitchen and find the required spices. You can also consult an Ayurvedic doctor nearby. Get well soon Bhai.

Your loving sister, Khusi

PEEPAL BABA

Rahul : *Maa*, have you heard about Peepal Baba? Our teacher told us about him today.

Mother : I have not heard about him. Who is he and what does he do?

Rahul : He plants trees along with his team. He also started a movement to plant and save trees.

Mother : That's wonderful. Where did he get this idea from?

Rahul : When he was studying in a school in Pune, his English teacher gave him the idea to plant trees. He was just 11 years old.

Mother : How did he plant so many trees all over the country as a child?

Rahul : He was born to an army officer's family in Chandigarh and whenever they were moved to a new city, he planted more trees.

Mother : But how did he come to be known as Peepal Baba?

Rahul : He used to plant Peepal and Neem trees as they have many uses for us and told others to do so. So, in the beginning, people made fun of him by calling him Peepal Baba but he was not bothered and continued to do his work. Now everyone calls him by that name lovingly.

Mother : He is really doing great work. We should learn from him and plant more trees.

Rahul : Yes, *Maa*. We must tell others to do the same.

Prabhat always wanted to win. His parents, teachers, and friends said that he did not know how to accept **defeat**. The fact was that he could not bear losing, not even at marbles. He felt so good when he won that he never wanted to give up that feeling. **On the contrary**, losing made him feel **terrible**. He thought that losing was the worst thing that could happen to anyone.

If Prabhat **sensed** that he would lose a game, he would not play it. He would take part only when he was sure of winning, even if the game lasted only for a minute. You could not stop him from playing the kind of games he was really good at, like badminton.

A new student joined Prabhat's school, and his name was Surya. Surya was an excellent badminton player. Prabhat waited for the last Friday of the month. Last Friday was **significant**. This was when the coach **conducted** friendly matches in the games period. The teams were decided on Monday and it was no surprise when Prabhat and Surya were chosen to play around against each other. Prabhat was given the responsibility of keeping score for their match. On one hand, Prabhat prepared for the match with great seriousness. Surya, on the other hand, seemed relaxed, not taking the things seriously at all. He walked about the whole time, smiling

on the contrary:
just the opposite

terrible:

and cracking jokes about all sorts of things. But on Friday, at the badminton court, Surya was a real **phenomenon**. He won points again and again, laughing and joking all the time. However, Surya was paying so little attention to the match that Prabhat managed to change the scoreboard while his opponent was looking elsewhere.

Prabhat managed to win by cheating. He made a big thing of his win, but it did not matter to Surya.

“It's been fun. We should play again some other time,” said Surya.

Let us discuss

1. State whether the following is **True** or **False**.
Prabhat would accept losing to anyone easily.
2. What was special about the last Friday of each month?
3. Who was responsible for maintaining the score for the match?
4. Do you think Prabhat wished to play another match with Surya?
Why do you think so?

II

On that day, everyone was discussing their game and how Prabhat had played so well. Surprisingly, Prabhat could not sleep well that night. He had won the game but he did not feel as happy as he usually did. It was very surprising that Surya did not feel bad about losing. What was more surprising was that Prabhat saw

Surya playing basketball the next day. Surya was so **hopeless** at it that he could not score a basket for ten minutes. Yet, he enjoyed himself playing the game. His happy smile never left his face.

Prabhat **kept a close watch on** Surya for some days. He was great at some things, terrible at others but what was common was the enjoyment. He enjoyed everything equally. As Prabhat went on with his observation, he realized that to enjoy a game, you did not need a scoreboard to keep a tally of your scores. Neither did you have to worry about winning and losing. You needed to enjoy the game for its own sake. What matters is trying to do well, and enjoying every moment of it.

Prabhat learnt something through the observations every day, soon realising the change in himself. He had even begun playing hide and seek, and felt sad whenever it was about to end. He also started joking while playing badminton. Soon, the other students started talking amongst themselves, “Good fun playing with Prabhat, that fellow definitely has a great sporting spirit.”

YOGA – A WAY OF LIFE

Let us do these activities before we read.

1. What do you know about yoga?
Discuss in pairs and share with the whole class.
2. What is 21st June known for? What do we do on this day?
3. List as many words you know related to yoga. Share them with your classmates.

Let us Read

Yoga is a physical, mental, and spiritual practice that **originated** in ancient India. The word 'Yoga' comes from the Sanskrit root '*yuj*', which means 'to join' or 'to unite'. This symbolizes the unity of mind and body; thought and action; **harmony** between human and nature. It is a **holistic** approach to health and well-being.

Sage Patanjali presented the ancient tradition of yoga in a systematic way in 'Yoga Sutras of Patanjali'. He described yoga as the means to make the mind quiet and free from all **distractions**.

Yoga has become increasingly popular around the world due to its many health benefits.

holistic :

Here are some of the benefits of yoga—

- Yoga postures (asanas) help to stretch and strengthen the muscles, increase flexibility, **endurance** and balance. This can improve overall physical fitness. This can also help to reduce body pains, such as lower back pain.
- Yoga involves breathing techniques and meditation, which can help to calm the mind and reduce stress and **anxiety**. It relaxes the mind, improves the quality of sleep and increases concentration.
- Yoga has been shown to **boost** the immune system. It can improve heart health by lowering blood pressure and improving circulation.
- Yoga can aid in weight loss by burning calories, and maintaining health.

Yoga promotes a sense of overall well-being. This is the reason why the benefits of practising yoga are internationally recognised. The World Health Organisation (WHO) on 20th June 2021, launched an App called WHO mYOGA. The app contains a collection of videos and audio files to teach and support yoga practice. The aim was to have an easy-to-use and free tool for people across the world to encourage them to practise yoga.

Jasmine - Class VI

We can start practicing yoga at any given moment of time. We must remember that when we practise yoga *asanas* (postures), we do not just stretch the body, the mind has to be with the body. This is the reason why it should be practised without distractions. If each stretch is coordinated with the breath and awareness, our practice will become a yogic practice.

YOGA—A WAY OF LIFE

Namaste everyone!

I wish to share with you all that I do simple yoga exercises with my grandfather. He has been practising yoga since he was 16 years old. My grandfather is fit and strong even at the age of 65. I am sure that this is the result of many good habits. I know that eating a balanced diet regularly and making yoga a part of his life have been hundred per cent effective. When I accompany my grandfather to the park, I see so many people—young and old—doing yogic breathing exercises.

I like doing these exercises. Whenever I'm a little worried about an Inter-House competition, I always remember to do some of these exercises early morning that day. It relaxes me and makes me feel focused and calm. I plan on learning some *asanas* from my grandfather during the summer vacations.

Wish me luck!

Paying homage to their courage that shows.

ALOO BHARTA

I am Minati from Mayurbhanj district of Odisha. Let me tell you a unique dish of our State. Aloo Bharta is a traditional dish of our state. To prepare Aloo Bharta, first take some potatoes and boil them on high heat. After that, peel off the skin and mash the potatoes in a bowl. Then we garnish the Bharta with chopped onions, green chilies, coriander leaves and some garlic cloves. Add these to the mashed potatoes. Now, pour one and a half tablespoons of raw mustard oil over the mixture. Add salt according to taste and mix everything well using hands. Aloo Bharta is usually served with steamed rice and dal or with pakhala (fermented rice). This humble dish is not only easy to make but also very satisfying to eat.

THE KITES

It is a popular festival in India and it takes place during *Makar Sankranti* in the month of January. People can even be seen flying kites from their terraces and rooftops and taking part in kite flying competitions.

This festival is celebrated as *Uttarayan* in Western India. The festival gives everyone a chance to look at kites of different shapes, sizes and colours. Gujarat is the main centre of celebrations but *Uttarayan* is also celebrated in Rajasthan and Telangana. In Karnataka, the Tourism Department has also been organizing the kite festival once each year. Punjab also celebrates this festival of kites during *Baisakhi* and *Basant Panchami*.

Kite flying is a tradition that is deep-rooted in Indian culture and the Kite Festival is one that is eagerly awaited. This is also a reason why people across India also fly kites to celebrate Independence Day. Happy kite-flying to all of you!

ILA SACHANI:

EMBROIDERING DREAMS WITH HER FEET

Hello everyone! I'm here today to share some simple information about Kathiawar embroidery. This is a very old form of embroidery. It uses many bright colours and also uses many types of stitches, like the chain stitch. The embroidery is commonly seen on clothes and home decoration items. On clothes, it is seen on children's caps, *ghagra* skirts and men's traditional shirts. In this embroidery, a lot of mirror work is done by fitting small mirrors along with the stitches. Most commonly, the designs used are geometric shapes like squares and triangles. The design of flowers is also used. There is much more to share but I'll do that some other time.

You will listen to the audio or narration once again. As you listen, check your answers.
