Strengthening Teaching-Learning and Results for States (STARS)
(A Centrally Sponsored Scheme Supported by World Bank)

Minutes of the meeting of the Project Approval Board (PAB) held on 15th July, 2021 through Video Conference to consider the Annual Work Plan & Budget (AWP&B) 2021-22 of STARS for the State of Odisha.

AS Sharma

1. Introduction:

A meeting of the Project Approval Board (PAB) for STARS Project through Virtual Mode was held on 19th August, 2021 between 10.00 AM to 01.30 PM to consider the AWP&B Proposals for 2021-22 and also to ratify the proposals of 2020-21 of the States.

The meeting was chaired by Smt. Anita Karwal, Secretary, DoSE&L and convened by Shri Vipin Kumar, JS (AE&Coord). Participants of the meeting is listed in **Annexure-I**.

Shri Vipin Kumar, JS (AE&Coord) thanked all the participants from Ministry of Education and representatives from all participating states for joining the meeting. A presentation containing AWP&B template, the proposals from the states and the appraised documents was presented by JS (AE&Coord). Thereafter Secretary, SE&L invited all the states for presenting their proposals to the PAB.

States presented their proposals to the PAB one by one and proposals for each component were observed by the members of PAB. JS (AE&Coord) added that in the template for AWP&B the MoE has added some points to hand hold the states for preparing proposals in line with the SIG Manual. States need not stick to only those interventions mentioned in the template but they can come up with their own proposals apart from the template. However, all proposals must be aligned to the SIG Manual and DLIs.

The overall observations/suggestions of the PAB on the AWP&B proposals of the states are listed below:

1. The World Bank Project is not about augmenting infrastructure but focus primarily on quality interventions. States need not force fit the proposal with any scheme. States should come up with a basket of proposals for the same.
2. World Bank allows infrastructure but not to build buildings, bathroom and toilets. Activities pertaining improvement in quality like Science labs, Computer labs, pedagogical infra and innovation may be proposed. Standardized Teaching Learning Materials (TLM) may be encouraged.
3. States need to map all of their existing pre-schools with the present Anganwadis. As STARS program is only for 5 years, the states will not be supported for opening any pre-school, since states may not be prepared to support these beyond 5 years when funds from WB will be unavailable. States are requested to converge with WCD on concerned proposals.
4. Training of teachers of Anganwadis, development of ICT labs, digital initiatives to facilitate home based learning and all other activities of Anganwadis should to be done in consultation with Department of WCD. For television and radio channels ISRO may be consulted.
5. State Assessment Cell in the states has already been set up or being set up under SCERT which is being support through Samagra Shiksha. So the states need to be very specific, as to what they are going to do with the funds under STARS project and Samagra Shiksha to avoid

- duplication. It will be decided by MoE, whether the entire fund can be made available under STARS Project, as funding through Samagra Shiksha may be very limited.
6. For BRCs and CRCs teacher training other than NISTHA is acceptable. But states need to have an IT tool for the reporting by BRC/CRC and for monitoring them.
 7. States may develop partnerships with Not for profit actors for Vocational education. It is also important to assess how to cover the children and assess their numbers.
 8. It was suggested by PAB that just training of teachers and preparation of item banks is not sufficient but states also need to track the progress of children. For this purpose all the States need to compulsorily set up **Control and Command Centre (CCC)** for the purpose of tracking the performance and progress of Child. Funds for the same may be taken from STARS Project. States are also encouraged to make arrangements for their officers to visit the facilities such as CCC created by Gujarat.
 9. The proposals of states should include strengthening of DIETs, BRCs and CRCs. Strengthening of training facilities and ICT enabled DIETs may be supported through STARS.
 10. Establishment of Robotic Labs may be supported through STARS project. Therefore, the states are encouraged to bring proposals for the establishment of Robotic Labs.
 11. Teaching Learning Materials along with interventions focusing on Toy pedagogy may be proposed. Children should not be provided with ready-made toys but they should be provided with kits so that children can learn how to make toys on their own and develop fine skills.
 12. States need to include training of Head Teacher and Teachers on Pedagogical planning, as it is going to be quite useful aspect of the training.
 13. Mentoring of Teachers should also be included by all states. Framework for Teachers mentoring is being developed by DoSE&L, and will be sent to the states.
 14. For building of MIS systems, states are encouraged to go for low cost solutions. All the MIS components should be NDEAR compliant. States need to specifically explain every components of the system to justify its cost. States need to plan for cloud hosting charges beyond STARS project period.
 15. For PPP models in schools where one school is taken over by a private partner for quality improvement, concerns of PAB were that it may not empower the system and the schools may go back to normal when STARS period is over. So states are encouraged to develop the model which empowers the system. State may try these models on pilot basis.
 16. For STARS project there is a need to develop some output/outcome monitoring system so that improvement in every component may be monitored for every States.
 17. Under STARS Project, ITI will not be funded. Only schools will be funded. Hub-spoke model may be implemented for students apart from CWSN. Some of the vocational courses may be taken online, with only apprenticeship portion being attached to an industry.
 18. Partnerships: STARS project is giving a maximum weightage for partnerships. States need to come up with the partnerships with NSDC, SSCs for skills development; IITs, Central Universities, IISERs for mentoring of teachers and with non-Government players like Samchi-Aai foundation and other NGOs.

19. States need to prepare 12 weeks School Readiness plan instead of 5 weeks, because students coming from Anganwadi or pre-primary schools may not be at the cognitive levels or the achievements level that are required of a child of 6 years old. MoE will be launching suggested School Readiness Plan, which can be used as a base to develop their own plan.
20. Proposals for workbook for Anganwadi/pre-primary and grade 1, 2 and 3 should be aligned with the framework, competencies and goals of NIPUN Bharat.
21. If Learning Management system is proposed by the states, it must include all aspects of the growth of the child, whether it is social, emotional, cognitive, psychomotor, health among others. The Annexures of NIPUN Bharat may be referred for this purpose.
22. It was requested from the states by JSFA, MoE to provide details of expenditure against funds released to states during previous year. She also instructed the states to create an SNA account for the State and a zero balance account for all Implementing Agencies (IAs). States also need to map every account to the last mile with PFMS before releasing the money.
23. Details on teacher training on COVID-19 safety guidelines may be included in Component 3: Improved Teacher Performance and Classroom Practice.
24. Details on training of BRC/CRC officials and school management on Environment, Health and Safety aspects may be included in Component 4: Strengthened Service Delivery
25. Details on quality interventions including teacher training on Environment, Health and Safety aspects may be included in Component 1: Strengthened Early Years Education
26. Details on integration of Environment, Health and Safety aspects into vocational training may be included in Component 5: Vocational education and training.

The Specific Comments/suggestions for all the states by Secretary, SE&L are listed below which should be implemented in the upcoming PABs.

1. It should be assured by the states that there should be no duplication of activities proposed under STARS Project with Samagra Shiksha.
2. The program/activity should be sustainable, i.e. the program started with STARS project should be continued even after the STARS period otherwise, there will be a huge criticism of the Project. As the funding of STARS is only for 5 years, States would be on their own for carrying forward the relevant programs.
3. Wherever states are doing any work with Anganwadi, prior consultation with department of WCD should be shown to MoE, i.e. states need to take on board the department of WCD.
4. All states compulsorily have to set up Control and Command Centre (CCC) for tracking of children, within the outlay of that MoE has proposed for the states.
5. Item banks should be competency based i.e. the item must be related to the application of knowledge applied to a real life situation and not knowledge directly. Item developers are professionals. Teachers can develop routine items but they may not be able to develop competency based items. Therefore, states should include in their proposals, hiring of item developers for development of competency based items. It will also help in PISA 2025. This is also a mandate of NEP 2020.
6. Psychometric and skill based aptitude test should be proposed.

7. In the PAB for every year, states must show a document for their output/outcome. Therefore, next year PAB is incumbent on the output/outcome document which will be placed in public domain.
8. School Readiness module must be of 12 weeks and MoE will be sending suggested School Readiness Plan, which can be used as a base to develop their own plan.
9. State should plan for proposal of IT and AI system for preparing Holistic progress card. It may be weaved in with CCC.
10. The proposal for teacher assessment should be well thought through for coping up with the Covid19 situation.
11. State School Standard Authority (SSSA) may be a part of the proposal from states in future.
12. States instructed to revise the proposals according to the following table:
13. State should conduct Teacher Needs Analysis (TNA) for teachers so that it could be known what the need of the teachers is before taking teachers' training. States may take Karnataka for instance; as they have developed a bouquet of courses and the teachers are free to take any of those courses as per their needs and interest.

Appraisal of Funds under the Technical Assistance component for MoE.

The national component has the following break-up.

- Hiring of an agency as program management unit (PMU) in MHRD : US\$ 10 million
- Pilot studies/initiatives/impact evaluations on key areas of the project : US\$ 10 million
- Hiring of the Independent Verification Agency (IVA) : US\$ 2 million
- Knowledge Sharing/ National and International Exposure Visits : US\$ 3 million

Total National Component \$25 million (₹185 crore approx.)

In FY 2020-21, ₹ 59.85 lakh (66,500 Euro) was released for PISA 2022 to the Organisation for Economic Co-operation and Development (OECD). For FY 2021-22, ₹ 333.13 lakh for PISA related activities to CBSE (NPM) and ₹ 26.70 lakh for PISA bilingual has already been raised. Release of funds for PISA related activities as per actual expenditure may be processed under this component. Also, payments for IVA and PMU will be made as per the actual invoice raised by the firms against the completed work. The actual reimbursement by the World Bank will be carried out based on the invoices.

2. Status of releases by GoI during 2020-21

An amount of **Rs. 1757.23 lakh** was released during 2020-21 against total outlay of **Rs. 2,928.72 lakh** for the implementation of STARS Project in the state during 2020-21, which has been ratified by the PAB during the meeting. The costing sheet is attached at Annexure IV. Due to COVID 19 pandemic and paucity of time the state could not carry out the activities leading to total amount being left as unspent balance in 2020-21. PAB therefore approves to carry out the activities

approved for 2020-21 in 2021-22 with same financial outlay left as unspent in 2020-21. No additional budget shall be granted.

3. Total Estimated Budget (2021-22)

In the end Secretary, SE&L invited for comments and suggestion of JS (SS-I), JS(SS-II), JSFA, AS(SE&L) and other members. Every member of PAB praised the STARS Project as it gives states the freedom to come up with the basket of scheme which they cannot do under Samagra Shiksha.

It is reiterated that although PAB has approved the said interventions, the respective States are liable and responsible to ensure that the expenditures are in line with Govt. of India guidelines, regulations of the World Bank, STARS Program Appraisal Document and the SIG manual. There should not be any duplication of activities and beneficiaries between STARS and Samagra Shiksha. Components which overlap with WCD or other ministries/departments must be carried out in convergence and accordance with respective ministries/departments. All the rules, regulations, procedures and guidelines of Govt. of India as well as World Bank must be adhered to while procurement and contracting. There must be no replication of content, procurement etc. The DLIs and SIGs which have been projected by the state must be fulfilled as it will enable Govt. of India to claim disbursement from the World Bank. The achievements made under the DLIs and SIG must be communicated to MoE regularly along with relevant documentary evidence for early reimbursement of funds.

JS (AE & coord) thanked Secretary, SE&L for chairing the meeting and all the members of PAB from MoE and States for coming and making the PAB a success. Meeting ended with thanks giving to and from chairs.
